

reading assistant™

A reading coach for every student - anytime, anywhere!

SUMMER PROGRAM

Reading Assistant™ is an online program that is proven to dramatically improve reading fluency and comprehension. It works like a personal reading coach by using voice recognition to “listen” to students as they read out loud, offering decoding support just when they need it. Administrators and teachers are then able to use easy-to-read progress reports to see how their students’ fluency and comprehension are progressing.

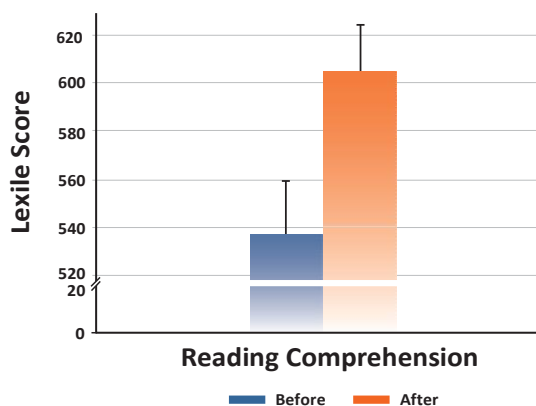

Reading Assistant online software delivers:

- **Help When Students Need It:** Patented technology provides real-time corrective feedback via speech recognition, enabling students to learn from errors
- **Time Savings for Teachers:** Automatic calculation of words correct per minute (WCPM) and immediate access to comprehension and vocabulary reports make tracking students’ progress effortless
- **Increased Student Engagement :** Reading selections for a variety of interests and reading levels plus frequent comprehension checks keep students motivated and focused on reading for meaning
- **Anytime, Anywhere Access:** MySciLEARN™ on demand makes the software easy to implement for school or home use

“ these results are unprecedented. We have been searching for a solution that would work for every student and [Reading Assistant] has met our needs and exceeded our expectations.”

—Denise Maresco
District Literacy Program Director
Chelsea School District, MA

Proven to Get Results

Students using Reading Assistant software can improve their reading grade level up to 50% more than students receiving classroom instruction alone, in the same time period.

In a one-month summer program, fifth grade participants using Reading Assistant gained 68 points in their lexile scores, more than half the expected yearly gain of 100 to 120 points.

Engaging Content at a Variety of Levels

- More than 300 leveled reading selections aligned with Common Core Standards, including science, history and social studies
- A variety of genres supporting elementary to high school curriculum, including both literature and informational text at all reading levels

Content Pack Interest Level	K-3	4-5	6-8	9-12
Number of Selections	60 Selections	91 Selections	75 Selections	77 Selections
Reading Levels	Grades 1-3	Grades 1-5	Grades 2-8	Grades 3-Adult
Lexile® Levels	60L-730L	100L-890L	415L-1270L	375L-1275L
Guided Reading Levels	D-P	H-W	M-Z	N-Z
Interactive Glossary Words*	2,455	4,082	2,690	2,861

Easy-to-Use Reports and Indicators

Multilevel Reporting

The MySciLEARN™ platform for Reading Assistant provides implementation and performance reporting at the district, group, and student level to improve data-driven decision-making. Graphical depictions show usage, performance, reading level trends, and student proficiency levels.
