

Student & Family Handbook 2023-2024

President's Letter

Dear Parents and Students,

The student handbook and Code of Conduct has been developed by state certified administrators and educators. It is an important document written to ensure the success and safety of your child. We must work together for the highest educational success for our students and your children.

An effective school is one where teachers, students and administrators respect each other and where students have the best possible learning environment and resources to reach their highest learning potential and goals. Guidelines that ensure this effort should be firm, fair, and reasonable.

I want to thank the students, parents, teachers, and administrators that help interpret the guidelines of this student handbook and Code of Conduct.

Regards,

Nancy W. Alberts, M.Ed., BCCS
President,
Seven Bridges School

Our Philosophy

We believe that accommodating for the special needs of many bright learners does not mean a diluting of academics. Our philosophy of analysis and synthesis thinking lends itself to enrichment rather than acceleration, thus knowledge and skills are restructured and are taught to the learner with a greater concern for the cognitive and emotional developmental readiness stages than for a concern with a standardized curriculum or a calendar.

Our Mission

The mission of Seven Bridges School is to meet the needs of students with unique and challenging learning styles by establishing a safe, supportive, and positive educational setting which continually assesses expectations, provides opportunities for success, and develops within each learner strategies for smooth transitions.

Our Purpose

The purpose set forth by Seven Bridges School is to discover and facilitate through the learning styles of every child a basic curriculum so that he or she is able to purposefully and successfully pursue life goals.

It is the policy of Seven Bridges School to provide a learning and working environment which promotes respect for and the dignity and worth of all its members and which is free from sexual

harassment. All members of Seven Bridges School are expected to contribute to an environment free of sexual harassment. It shall be a violation of this policy for any student or employee of Seven Bridges School to harass a student or employee through conduct or communication of a sexual nature as defined by this policy. Seven Bridges School takes very seriously, and will respond to, any complaint of sexual harassment. Seven Bridges School recognizes that there are different levels of intervention and response to complaints of sexual harassment.

The purpose of taking action is to stop behavior that is offensive to an individual and to the school community and to educate the individual and the school community. This policy is in effect for all school-sponsored events and applies to all employees and students of Seven Bridges School. It also applies to behavior by non-school personnel toward employees and students on school grounds, in school facilities, school transportation, and at school sponsored events. Seven Bridges School is committed to implementing this policy by training staff, by educating students of all ages, by publicizing procedures for responding to sexual harassment, and by taking appropriate action.

A report will result in a formal investigation of the incident. The purpose of an investigation is to determine whether the offending behavior falls within the definition of sexual harassment and whether disciplinary action is warranted. In determining what action should be taken when sexual harassment occurs, Seven Bridges School will consider the surrounding circumstances, the nature of the sexual advances, the relationships between the parties involved, the ages of the parties involved, and the context in which the alleged incident(s) occurred.

The purpose of the dress code is to provide a standard to ensure that students are properly dressed for the business of learning. Students and parents also have the responsibility of providing the school with a written explanation of any absence upon the student's return. It is the student's responsibility to take advantage of his/her educational opportunity by attending all classes daily and on time.

Absences of more than eight (8) days or subject periods per semester and sixteen (16) days per or subject periods per year may result in the student failing the semester or year. Make-up work turned in after the required deadline for any absence may receive half credit.

STUDENT RECORDS

Student records are meticulously managed and maintained with strict confidentiality. School procedures for record management outline the type of student information collected and how that information is maintained and released. The procedures protect the accuracy and privacy of student educational records. These procedures further indicate the school officials who have the responsibility to manage or process student files.

- A well-developed student file record file contains information needed for making appropriate educational decisions for the student. Education records of a student include but are not limited to: personally identifiable data (student and parent name, address, birth date, social security number, birthplace, sex, race), Birth certificate, academic records, standardized test results, attendance records, health data, family background information, teacher or counselor ratings and observations, psychological reports, psycho-educational evaluations, honors, awards, list of schools attended, and other evidence, knowledge, or information recorded and maintained by an institution or by a person acting for an institution.

- Those persons having access to student records are the school, school director, and authorized school personnel only.

Parents should inform the school of any information that may be useful in making appropriate educational decisions. Parents and students 18 years of age or older have the right to inspect, review, and challenge the information contained in records directly relating to the student.

Parents should authorize and inform the school to release pertinent information to those individuals or agencies that are working actively for the benefit of the student. Parents must disclose, upon initial registration, all previous arrests and juvenile justice actions pertaining to their child.

INTERNET ACCESS

Students and teachers will have access to the Internet in the classrooms and the computer lab. Strict laws and guidelines govern the use of the sources and information available through this technology. Failure to follow these procedures and abide by the laws will result in strict disciplinary action and denial of future use of the Internet at school. Additionally, appropriate legal action may be taken. Use of the Internet provides great education benefits to students. Unfortunately, however, some material accessible via the Internet may contain material that is illegal, defamatory, or potentially offensive to some people. Access to the Internet is a given privilege to students who agree to act in a considerate and responsible manner. Students are responsible for good behavior on the Internet just as they are in the classroom. School rules for behavior and communication apply. Network storage areas may be treated like school lockers. Network administrators may review files and communications to maintain system integrity and ensure that users are using the system responsibly. Users should not expect that files are private.

SOCIAL MEDIA/NETWORKING POLICIES AND PROCEDURES

Social media encompasses a broad array of online activities including social networks/media such as Twitter, Flickr, Instagram, Facebook, GroupMe, Snapchat, blogs, and other similar online or internet communications. Because this form of communication is vast and growing, we feel it is important to communicate to you the school's position regarding a student's use of social media or networking.

USE AT SCHOOL OR SCHOOL-RELATED EVENT

We do not permit students to access social media and/or social networking sites while on school property or at a school-related event. We have taken steps to block many of the social media/networking sites on our network, but technology will undoubtedly work faster than our IT department. Therefore, even if you are able access such sites on school property or at a school-related event, you should understand that your activities are in violation of school policy and may result in disciplinary action.

USE AWAY FROM SCHOOL PROPERT

It is not our goal to regulate a student’s personal online activities when not on school property at a school-related event. Please understand, however, that certain activities might impact a student’s relationship with other students or school employees or school rights that we do reserve the right to regulate. All students should ensure that they are familiar with the school’s policies to avoid any online communications that might violate these policies.

For example, you should ensure that your online activities do not violate a school policy regarding bullying or harassment, or other similar policies pertaining to how students interact with each other. If you post or say something online that makes another student feel uncomfortable, your activity can result in an investigation and possible discipline.

Students should also be aware that teachers and administrators periodically check such sites and may determine that off campus behavior violates the school conduct code by making disparaging or negative comments about the school, administration, or faculty members in a manner that is disruptive to the school’s educational mission or activities.

Students should not “follow” or be “friends” with any faculty member or other adult members of our community (other than the student’s parent) on any of these social networking sites. Any violation of this prohibition must be reported to the administration immediately.

In addition, posting on social networking or other Internet sites of students engaging in inappropriate behavior (such as drinking, smoking, sexual actions, etc.) is prohibited.

Students are not permitted to use the school’s name, logo, trademark, or service mark in online activities. Students are not permitted to post photographs of the school, its locations, activities, students, parents, or employee-related activities online. Students are not permitted to create websites or social networking profiles to rate teachers, discuss aspects of the school, or otherwise disclose information online that the school would find offensive or inappropriate if posted in the school’s newspaper. Finally, students are not permitted to disclose confidential information of the school, employees, students, parents, or activities online.

RESPONSIBLE ELECTRONIC USE RULES FOR STUDENTS

I have access to the Internet, Individualized Education Services d/b/a Seven Bridges School networks, provided electronic accounts, email, and electronic devices and other “electronic resources” so that I can:

- Expand my learning.
- Communicate with others about what I am learning.
- Research topics for class projects or for my personal learning.
- Create products highlighting my learning.
- Learn how to be a responsible and productive digital citizen.

Here are some things I need to know:

- Electronic devices include but are not limited to computers, netbooks, iPads, iPods, tablets, cell phones, cameras, smart watches, and other electronic devices that allow me to create and communicate.
- I am responsible for all my online activities that take place through the network connection with my school’s devices, electronic accounts, email, or through access with my own personal electronic devices.
- I am responsible for obeying all laws, including copyright.
- I do not have the right of privacy when accessing the Internet or network while at school.
- Communicating electronically includes using my camera, cellphone, and other smart device to communicate visually.
- When communicating electronically, I should ask myself: Is it safe? Is it kind? Is it respectful? Is it appropriate?
- **I do not have an absolute right to take, publish/post photographs or videos of others at school or during a school sponsored event, as it may impact their individual rights of privacy.**

- Bullying or harassing someone either in person or electronically is wrong, violates the Code of Student Conduct, and is against the law.
- Information I find on the Internet is not necessarily true or accurate.
- There are filters to prevent access to inappropriate information, but no filter is perfect. Every user must take responsibility for his or her use of the network and Internet and avoid objectionable sites, content, and communication. Seven Bridges School reserves the right to monitor, inspect, copy, review, and store, without prior notice, information about the content and usage of internet, school issued electronic accounts, email, and electronic devices. Students should have no expectation of privacy over matters sent or received through such electronic resources
- I can learn more about being a responsible digital citizen at <http://www.safeflorida.net/safesurf>.

Here's what I agree to do as a responsible and productive digital citizen:

- I will follow all school rules and laws when using electronic devices at school.
- I will not damage equipment, upload harmful files, damage files, delete files, or access someone else's account or files because it impacts others.
- I will keep my password to myself and will not share it with others.
- I will not search for or access obscene, harmful, or inappropriate material.
- If I accidentally access inappropriate materials, I will close the window and tell a responsible adult.
- I will not post or send hurtful, offensive, or inappropriate material.
- I will behave honestly, fairly, and with integrity when posting online, including my social networks.
- I will follow the rules of network etiquette, and I will be polite when communicating with others electronically.
- I will not use bad language or access messages from others who use bad language.
- I will not post or share pictures of others without their knowledge and approval.
- I will stay safe and will never meet or give out personal information such as my name, phone number, or address to someone I meet on the Internet without the express permission of my parents.
- I will discuss my online activities with my parents, so they understand how I am learning to be a digital citizen.
- My teachers and administrators have the right to access whatever I do online while in school if they are concerned about my safety or the safety of others.

- I will not use others' work without citing their work according to the copyright laws.
- If I'm not sure how to do something or whether something is okay to access or do, I will ask a responsible adult.

What happens if I violate these rules and am not a responsible digital citizen?

- Violations of these rules will result in disciplinary action according to the Student Code of Conduct.

FIELD TRIPS

School sponsored field trips, excursions, and overnight stays are considered extensions of the school campus and school rules are always in force. Students travel with the group on the specified mode of transportation and return to school with the group unless other arrangements have been made in advance. This includes buses, vans, and teach/parent driven cars. School rules are in force both going to and returning from a school event unless the student is with his or her parents.

Attendance on course-related field trips may be required. Failure to attend required field trips may result in a zero on any related assignments. Attendance on optional field trips of more than one school day is subject to the school's eligibility requirements.
